

4 March 2011, Friday.

Dear AST Alumni and Friends,

Our Alumni Association (ASTAA) database has been established with your email as well as 100's of others. The next steps in making the ASTAA a reality are as follows:

- 3-5 able volunteers are needed to review and edit the ASTAA By-Laws (currently posted on our school website [www.ast.ma](http://www.ast.ma)).
- 3-5 able volunteers are needed to create the protocol and execute the first election for ASTAA officers.

My goal is to begin these goals within the next week and completing by the end of the month. From there, I hope elections can take place sometime in April. The ultimate outcome is for our alums to become more engaged in life at AST through better communication and understanding of events/issues/possibilities.

If you are interested in participating in one of these activities, please email me directly at [headofschool@ast.ma](mailto:headofschool@ast.ma). As I do NOT know most of you, I will lean toward individuals with whom I have already had correspondence, and those who have talents specific to our needs.

As I have stated in the past, the ASTAA will be YOUR organization. My goal has been to create fertile ground by which you can become empowered stakeholders. We anticipate that your energy and commitment will keep this organization alive and well for many years.

As always, I encourage you to either visit the school or the website for updates regarding life at AST.

Regards.

Brian Horvath, Ed.D.  
Head of School
